Learning Points

Describing a New Home

When you compare two things, you use a **comparative**. You can use *than* or *as ... as*.

*We can show that two things are equal by using **as + adjective + as***

There is no difference between the two compared objects or ideas.

*We can show that two things are not equal by using **not + as + adjective + as***

When comparing with *than*, the adjective you use can change depending on the number of syllables it has:

- 1-syllable adjectives: add *-er* to the adjective

nice → nicer

- 2-syllable adjectives ending in *-y*: change the *-y* to *-ier*

busy → busier

- Adjectives with 3 or more syllables: use *more* with the unchanged adjective

expensive → more expensive

Certain adjectives have irregular forms in the comparative. For example:

good → better

bad → worse

Examples:

- *This couch is nicer than that couch.*
- *This street is busier than my old street.*
- *My condo was more expensive than the other apartment.*
