Let's Explore!

Vanessa and Mika compare the apartment **unit*** and a condo.

* One of the apartments in an apartment building.

Instructions: Read the text aloud.

- Vanessa:** Mika, I found two listings I liked. I have got to choose one.
Mika: Let's compare them.
Vanessa: OK. The apartment is cheaper than the condo, but the apartment is smaller.
Mika: Which one is closer to the restaurant?
Vanessa: The condo is. I have got to think about my budget too. The condo is more expensive than the apartment.
Mika: What about the buildings?
Vanessa: Well, the apartment building is older than the condominium.
Mika: That's always a good thing. What about the furniture and the rooms?
Vanessa: They both include a bedroom, living and dining room and a kitchen. The apartment includes an ensuite and a guest bathroom. The condo includes just a full bathroom. However, the condo includes an office space.

Examples:

- *I have got to make a decision.*
- *I have got to go for an appointment in the morning.*

Comparatives

When you compare two things, you use a **comparative**. You can use *than*.

When comparing with **than**, the adjective you use can change depending on the number of syllables it has:

- 1-syllable adjectives: add **-er** to the adjective *cheap* → **cheaper**
- 2-syllable adjectives ending in **-y**: change the **-y** to **-ier** *busy* → **busier**
- Adjectives with 3 or more syllables: use **more** with the unchanged adjective *expensive* → **more expensive**

Certain adjectives have irregular forms in the comparative.

For example:

good → better

bad → worse
