Let's Start!

Let's talk about safety in the workplace!

Learning Outcome

Identify and describe plans for the organization of events.

Ask your partner:

- Think of 3 ways to be safe when in the workplace.
- Write down why it is important to be safe in the workplace.

Can Do Statements

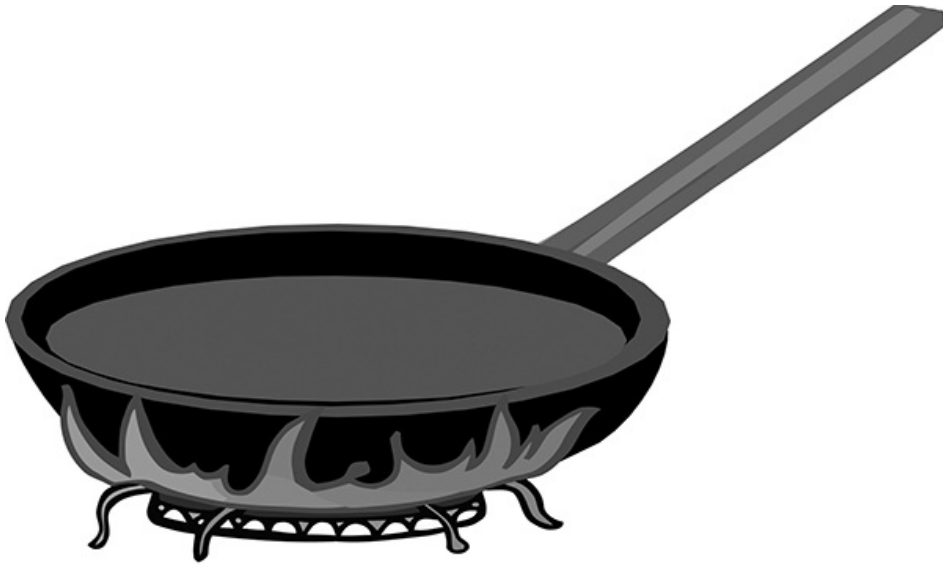

- I can talk about jobs and work.
- I can talk about injuries and accidents.
- I can use words to describe general quantities.

Let's Explore!

Vanessa learns about workplace safety in the restaurant.

Instructions: Read the text aloud.

- Colette:** Let's talk about workplace safety. Injuries such as burns and scalds are common in restaurants. It's important to take precautions when working especially with the deep fryer.
- Vanessa:** I read that many burns are a result of those.
- Colette:** Actually, when I started working in the restaurant industry, I had a small accident.
- Vanessa:** What happened?
- Colette:** You'll notice the area in front of a fryer gets lots of grease around it. I had a slip and fall accident.
- Vanessa:** Did you hurt yourself badly?
- Colette:** No, I didn't. Remember to be careful. Any other questions?
- Vanessa:** How do you avoid getting any scalds? There's lots of hot liquids in the kitchen.
- Colette:** Of course. Just follow all safety procedures when cooking with hot liquids. Read through the manual.

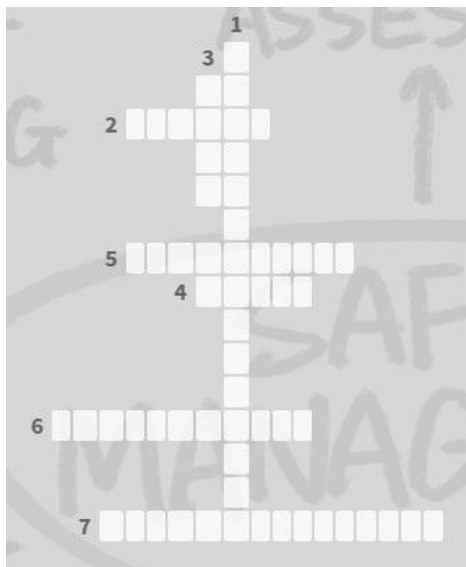

Let's Practice!

Vanessa is reviewing a few important words in her manual. What are they?

Instructions: Complete the crossword.

1. protecting the health of people at work.
2. a wound or damage to part of your body.
3. an injury caused by fire.
4. a burn on your skin caused by hot liquid or steam.
5. something you do to prevent something dangerous from happening.
6. losing your balance and dropping down.
7. a series of actions that are followed in order to be safe.

Let's Practice!

What is Vanessa's training session about?

Instructions: Organize the mystery sentences. Write each word in the correct order.

1. Let's / about / safety / . / workplace / talk

2. . / restaurant / I / When / the / I / started / accident / industry, / in / a / had / working / small

3. Deep / fryer / the / when / with / . / you / work / careful / Be

4. There's / hot / the kitchen / lots / liquids / .

Extension Activity

Find out about a common injury in the workplace.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Go on the Internet. Search common injuries in the workplace.
- Choose one (not burns or scalds).
- Write 7-8 sentences about this injury. Answer these questions:
 - How does it happen?
 - What can you do to avoid it?
- Read your sentences aloud to a partner.

Self-Assessment

Yes **No**

I talk about work.

☐ ☐

I research a common injury.

☐ ☐

I read my sentences aloud.

☐ ☐

Target Words

- workplace safety** (noun): protecting the health of people at work
e.g. Workplace safety is an important topic in the office.
- injury** (noun): a wound or damage to part of your body
Example: Injuries are common in restaurants.
- burn** (noun): an injury caused by fire
e.g. Burns are heat-related injuries.
- scald** (noun): a burn on your skin caused by hot liquid or steam
e.g. How do you avoid getting a scald?
- precaution** (noun): something you do to prevent something dangerous from happening
e.g. It's important to take precautions.
- deep fryer** (noun): an appliance that cooks food in hot oil
e.g. Be careful when you use the deep fryer.
- grease** (noun): an oily substance that comes off food made using butter or oil
e.g. Don't slip on the grease on the floor.
- slip and fall** (noun): losing your balance and dropping down
e.g. I had a slip and fall accident.
- badly** (adverb): to a serious level
e.g. Did you hurt yourself badly?
- safety procedure** (noun): a series of actions that are followed in order to be safe
Example: Just follow all safety procedures when cooking with hot liquids.

Learning Points

Talking about Injuries

Burns are common injuries.

Burns are injuries to the body's tissues (material that is made up of cells) caused by heat.

Scalds are a type of burn.

Burns are grouped according to how much the tissue is damaged.

Type of Burn	What Happens?
first degree burn	• redness • swelling in top layer of skin
second degree burn	• redness • swelling • blistering of skin
third degree burn	• damage of all layers of skin • scarring

Examples:

- *Injuries such as burns are common in restaurants.*
- *How do you avoid getting any scalds?*

Learning Points

Quantifiers

You use quantifiers to talk about the quantity or amount of something.

A quantifier can be general or specific. A general quantifier talks about that thing in a general way. A specific quantifier has more information. It refers to a specific example of that thing.

	General Quantifiers	Specific Quantifiers
Count Nouns	All Most Many Some Any A few A lot of A couple of No	All of Most of Many of Some of Any of A few of A lot of (the ...) A couple of (the ...) None of
Non-Count Nouns	All Some Any A little Much No	All of Some of Any of A little Much of None of

Examples:

- *Most equipment helps prevent accidents. (Non-Count - general)*
- *All of the oil in the deep fryers is checked. (Non-Count - specific)*
- *Many burns are a result of deep fryer accidents. (Count - general)*
- *Some of these accidents result in serious injuries. (Count - specific)*
